3. Site Plan Review

- 246 Industrial Way West. EEC found no negative impact. Just clean-up. Temporary PVC pipe.
- DCH Auto project. Steve, a Brookwood resident, reported heavy vibrations disturbing neighbors that's been going on for 2-3 months, even as late as 12:30 a.m. May be from compacting. Point is EEC should ask/recommend cautions in future development regarding schedule of type of work, work hours, annoyance, noise levels, etc.
- Consensus that projects with environmental issues have been approved without correcting those issues, i.e. DCH, mall, Artis, especially as to stormwater drainage, buffers. Ken mentioned underground detention basins requirements should include no litter, mosquitos.

4. Water & Air Quality

- The Stormwater Outfall Mapping Project for SJ is best done in summer when can do stream walks. Ed said all 9 dumps on Post are adjacent to streams, many on Parker Creek SubWatershed. The Boro doesn't have a map of them in town or on Post.

5. Solid Waste

- Roger spoke to DPW re a container for plastics. There is a TREX container for film/straws/bags. They are not sorting. Ken said the third Saturday of each month they have containers for sorting by shape and color.

6. Open Space

- Sara discussed Voyager program, Environmental Day on March 23. Ken said library hosts program, too.

- Reported that Oceanport downgraded its Env. Com. to a committee. Astounded everyone.
- Reported people driving cars onto Wampum Park from Lake Drive entrance and off Rt. 35.
- April 28th is Clean-up Day from 1-4 p.m. EEC will be working at the Arboretum again.

7. Complete Streets

- Steve attended Bike & Walk Summit. Increase in fatalities reported. He posted a report online.
- Asking Technical Assistance Program to connect trails from Arboretum to Wolcott to Wampum.

Thoughts of recommending Throckmorton become a one-way street.

- Two community walks scheduled: April 12 from Woldcott to Memorial School at 6 p.m. and May 19 leaving Woodmere School at 2 p.m.

8. Adjourned at 7:55 p.m.
